

Jennifer Amanda Cyr – Forester

Biography

Jennifer Amanda Cyr holds a bachelor's degree in forest management from l'Université de Moncton – Campus d'Edmundston. Jennifer started as an intern for NHRI in the winter of 2019. During her studies Jennifer worked on various knowledge mobilization projects. We recruited her as soon as she graduated, and she has since proven to be a key asset working as a forester as a part of the NHRI Precision Forestry Team. Before joining NHRI Jennifer worked for three summers as a student in forest operations.

Jennifer's work at NHRI?

Jennifer is a double threat at NHRI since she is comfortable working in both forest operations and knowledge mobilization. Her main duties revolve around working within the Precision Silviculture Team where she is responsible for completing forest field work related to service contracts and research and development projects. She also works on certain aspects of GIS data analysis. Jennifer is sometimes called upon to bring a helping hand when it comes to mobilizing the knowledge developed in the field.

Jennifer Amanda Cyr – Forester
